

# Luxury Las Vegas August 2010

## TIME IS OF THE ESSENCE WATCHES FOR EVERY TASTEMAKER

■ An ever-sophisticated classic is Cartier's very latest, the Calibre de Cartier watch. Awash in 18-carat pink gold with a chocolate-brown dial with four luminescent hour-markers on a brown alligator skin strap, this watch is "timeless." Cartier is located at Crystals, CityCenter. ■ The normal watch face has just found its modern twist with the new Vacheron Constantin Patrimoine Contemporaine Retrograde Day and Date. With an easy read of the retrograde's graduated arc indicating the day of the month and day of the week, this eye-catching timepiece is perfect for today's dapper man. Available at Bellusso at The Palazzo Resort, Hotel & Casino.

■ A contemporary sport-spirited bracelet design in white gold featuring an engine-turned silvered gold dial completes the Marine Royale 5847 from Breguet. This timepiece features an alarm that can be operated underwater to a depth of about 985 feet. Rubber over-moulding of its crown and alarm push-piece add to the watch's ruggedly virile character. Available at Tourneau, Forum Shops.

■ Sport watch maker Reactor has introduced their new Source timepiece. The watch's 50mm case is the largest watch Reactor has ever offered, and the dual movement, dual-time design is another first for the company. Like all Reactors, Source features Superluminova hands and dial markings, and is available at Watch Station in the Miracle Mile Shops at Planet Hollywood.

■ Armaan Swiss Diamond Watches has dialed in on sleek, black designs with its new Black Collection. Armaan, always at the forefront of cutting-edge design, maintains its usual standard of craftsmanship in the collection's timepieces, which include a fierce, sexy Skeleton sitting on a black leather alligator strap. ■ With eye-catching metallic orange and red accents, the bold-sized Aventura from Oceanaut offers three time zones, each displayed via a different quartz movement. Also striking is the unusual placement of the crowns at the top and bottom of the case. Available at select Nordstrom stores and [www.oceanautwatches.com](http://www.oceanautwatches.com).
